*Our working language as an international collective is English, we make the active choice to write this application and execute the project accordingly. We approach the project bilingual (Icelandic and English)

This years application title is (this project will be realised during 'Skapandi sumarhóp hjá Garðabæ í sumar'

SENSATION ABOVE EXPLANATION: a springboard into a sustainable future for project HOFIE.

The aim: Opening a dance association based in Gardabaer.

Motivation:

Over the past two years we have been working and developing Project HOFIE as a dance practice and performance collective. In the near future we want to expand the project and increase its capacity.

We have noticed over the past two summers (2022-2023) a difficulty to find a consistent and sustainable way to keep the project going after the summer. We are currently lacking the skills to take this project to the next level and would like to use this summer, our last year to participate, to create a way to do so.

Project HOFIE will go over its archived work and perform already existing performance over the summer in Gardabaer. We will document the process and display it in our final presentation.

How we will use this summer to live up to our aim:

SOURCES OF INSPIRATION

We will have conversations with artists and collectives that are in the place we project ourselves to be in 5 years.

ONLINE PRESENTATION

Making our website more professional and work on our social media representation.

SITE VISITS

Visit spaces in Gardabaer that might want to support our work, such as studios, galleries and museums.

ARCHIVE

Revisiting the works we have created in the past and perform them over the summer in Gardabaer. Rehearswe them as repertoire of the collective.

COMMUNITY BUILDING

Visit kindergarderns, elderly homes etc. connecting and having conversations with the community of gardabaer. To get aware of the cultural needs of gardabaer and see what we can potentially add in the future.

INFORMATION

Gather information, and make a productive work space online where we can set up our network, recourses and applications.

OPENING THE ASSOCIATION

Opening an official association to be able to expand the work in the future.

Final Presentation:

As our final presentation we will officially celebrate the establishment of our association. Archive all the work we have done so far in the form of an exhibition. Displaying our video works, photoshoots, excerpts of performances, drawings that we have collected in our performances during the last summers. Give a presentation about What is Project HOFIE about? - What is Project HOFIE going to be about!

RECOMMENDATION LETTER

Sumarið 2023 fékk ég, í starfi mínu sem verkefnastjóri Skapandi sumarstarfa í Garðabæ, að vinna með Júlíu Kolbrúnu Sigurðardóttur og Linde Hanna Rongen. Þær stóðu fyrir dúett dansverkinu 'How can we break this circle??' sem sló í gegn, bæði á lokahátíð Skapandi sumarstarfa og í sk. smáverkefnaviku. Þær Júlía og Linde eru metnaðarfullar, skapandi, vinnufúsar og sýndu yfirburðar ástríðu fyrir sinni list. Að auki voru þær duglegar að sýna frumkvæði við skipulag lokahátíðarinnar og sýndu mikla atvinnumennsku í hverju verkefni sem þeim var gefið. Það var lærdómsríkt og gefandi að vinna með Júlíu og Linde og sannur heiður.
